

Hello friend! Are you ready to get started on your own awesome DIY nautical flag banner?

I hope you enjoy these templates for each letter of the nautical alphabet! You can craft the entire alphabet, or spell out a special message!

The first page is the 6x9" template for each flag. Cut out one 6x9" flag out of white felt for each letter you want to make. Then, just follow the template for each letter - each color is marked, and any white parts of each letter say "don't cut." That's where the white background of the flag will show through.

Each letter's template also includes measurements so you can cut the felt shapes out with a ruler and scissors or cutting wheel if you'd prefer.

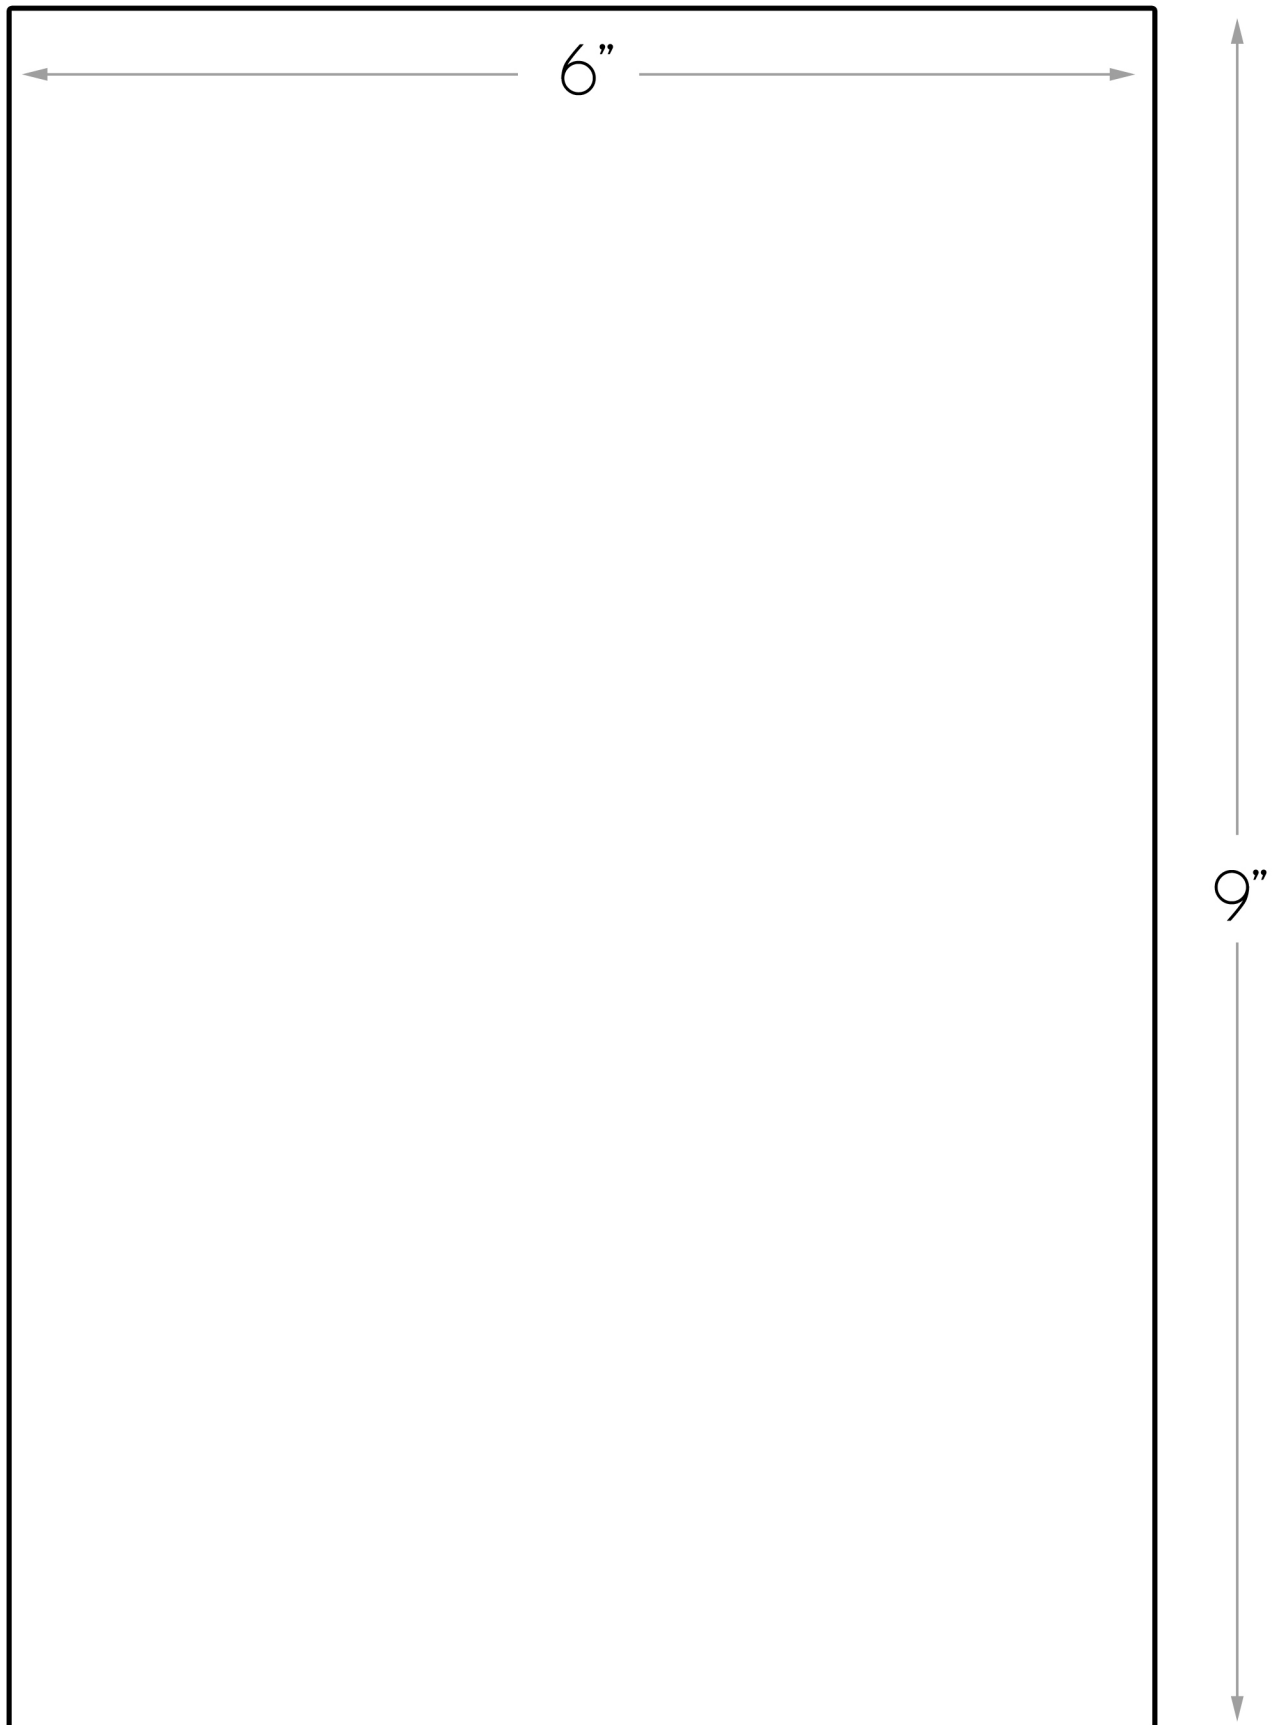

Terms of Use:

These printable files are free for personal use only.

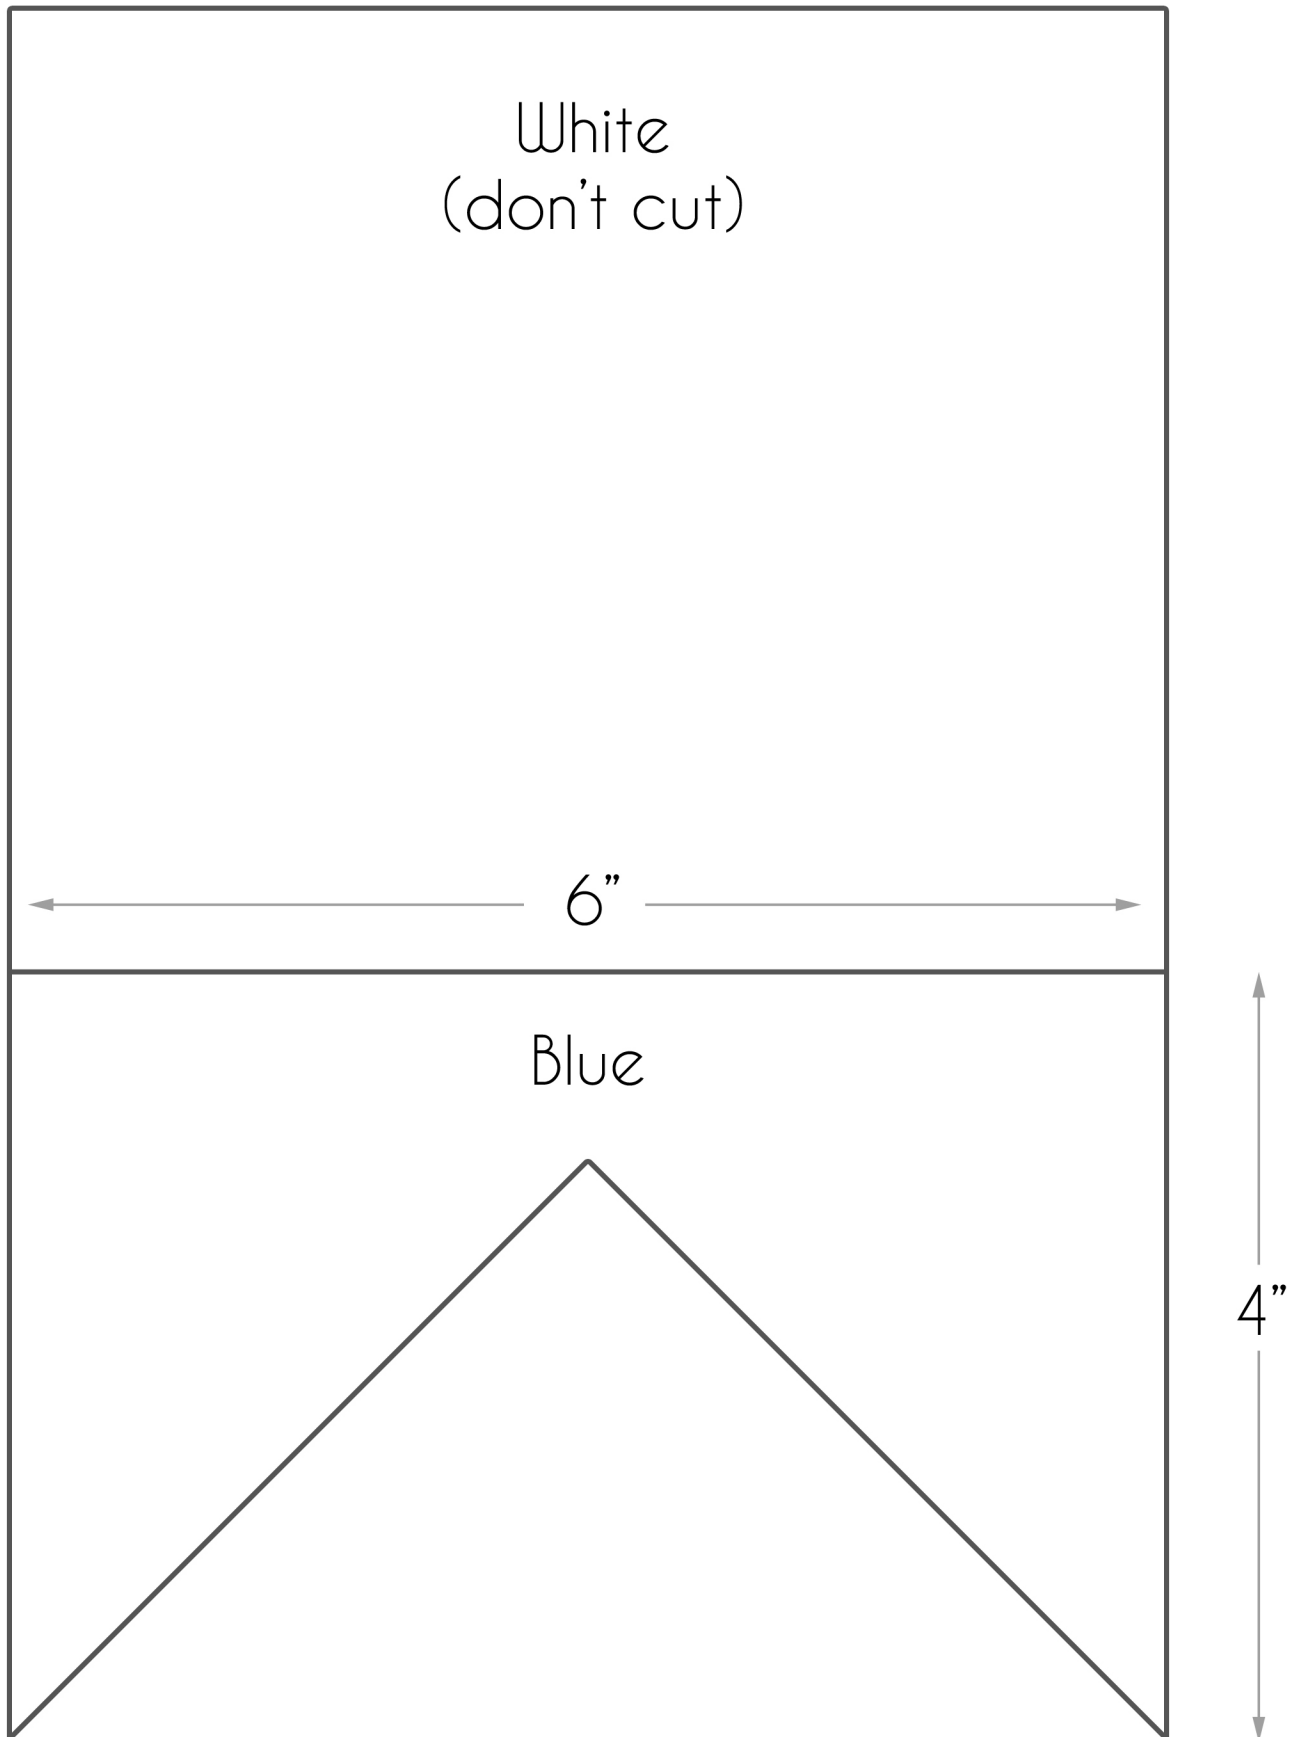

If you do make a banner, I'd LOVE to see it - feel free to tag me on social media or send an email to thegatheredhome@gmail.com!

Have fun!
